NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED MARCH 31, 2026 AND 2025
(Unaudited - expressed in Canadian dollars)

1. NATURE OF OPERATIONS AND GOING CONCERN

Coast Copper Corp. ("**Coast Copper**" or the "**Corporation**") was incorporated as Roughrider Exploration Limited on December 7, 2011 under the British Columbia Business Corporations Act. Effective September 28, 2021, the Corporation changed its name from Roughrider Exploration Limited to Coast Copper Corp. The Corporation is listed on the TSX Venture Exchange ("**TSX-V**") as a Tier 2 Mining Issuer under the trading symbol "**COCO**". The principal business of the Corporation is the exploration and evaluation of mineral properties. The principal focus of the Corporation is exploring its portfolio of mineral properties, including the Empire Mine property located on northern Vancouver Island, British Columbia ("**BC**"). The Corporation's sole operating and geographical segment is the exploration and evaluation of mineral properties in Canada.

The address of the Corporation's head office and registered office is Suite 904 - 409 Granville Street, Vancouver, BC, Canada, V6C 1T2.

These condensed interim financial statements have been prepared on the going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Corporation had a loss of \$36,097 for the three months ended March 31, 2026 (2025: \$186,727). At March 31, 2026, the Corporation had an accumulated deficit of \$7,845,746 (December 31, 2025: \$7,833,284). In assessing whether the going concern assumption is appropriate, management considers all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period.

The Corporation's ability to continue as a going concern is dependent upon the discovery of economically recoverable mineral reserves, the ability of the Corporation to obtain necessary financing to complete their development and fund their operations until commercially successful and future production or proceeds from the disposition thereof. While the Corporation has been successful in securing financing to date, there can be no assurances that it will be able to do so in the future, therefore, a material uncertainty exists that may cast significant doubt about the Corporation's ability to continue as a going concern.

These condensed interim financial statements do not reflect the adjustments to the carrying values of assets and liabilities, the reported expenses and the statement of financial position classifications that would be necessary if the going concern assumption was inappropriate. These adjustments could be material.

2. BASIS OF PREPARATION

These condensed interim financial statements have been prepared in accordance with International Accounting Standard 34 – *Interim Financial Reporting* ("**IAS 34**") as issued by the International Accounting Standards Board ("**IASB**") using accounting principles consistent with International Financial Reporting Standards ("**IFRS**") as issued by the IASB.

These condensed interim financial statements should be read in conjunction with the Corporation's audited financial statements for the year ended December 31, 2025 which include the accounting policies used in the preparation of these condensed interim financial statements.

These condensed interim financial statements were prepared on a historical cost basis using the accrual basis of accounting, except for cash flow information.

The Board of Directors (the "**Board**") approved these condensed interim financial statements on May 28, 2026.

3. MATERIAL ACCOUNTING POLICY INFORMATION

New standards, interpretations and amendments to existing standards not yet effective

A number of new standards and amendments to standards and interpretations have been issued by the IASB but are not effective during the year ended December 31, 2025. These have not been applied in preparing these financial statements. The standards issued but not yet effective are the following:

IFRS 18, Presentation and Disclosure in Financial Statements ("**IFRS 18**"), which will replace IAS 1, Presentation of Financial Statements aims to improve how companies communicate in their financial statements, with a focus on information about financial performance in the statements of loss and comprehensive loss, in particular additional defined subtotals, disclosures about management-defined performance measures and new principles for aggregation and disaggregation of information. IFRS 18 is effective from January 1, 2027. Companies are permitted to apply IFRS 18 before that date. The Company has not yet determined the impact of this amendment on its financial statements.

4. SALE OF BOREALIS PROPERTY, TOODOGGONE AREA, BC

On September 24, 2025, the Corporation sold its Borealis property, located in the Toodoggone District in northcentral BC, to Hi-View Resources Inc. ("**Hi-View**"), a publicly listed company that trades on the Canadian Securities Exchange ("**CSE**"). In consideration, Hi-View:

- paid Coast Copper a deposit of \$50,000 which was spent by Coast Copper on exploration expenditures on the Borealis property in October 2025 in order to keep it in good standing for a period of 12 months;
- made a cash payment of \$450,000 to Coast Copper;
- issued 3,500,000 Hi-View common shares to Coast Copper at a price of \$0.28 per share for an aggregate value of \$980,000; and
- granted the Corporation a bonus payment under certain conditions (see below for details).

Upon closing of the sale, Hi-View issued 3,500,000 common shares to Coast Copper, with the first 1,050,000 shares becoming free-trading on January 24, 2026, and the remaining shares becoming free-trading in equal tranches of 350,000 shares per month for seven consecutive months, such that the final 350,000 shares will become free-trading on August 23, 2026.

As a result of the restriction periods on certain of the Hi-View common shares, Coast Copper applied a discount for lack of marketability ("**DLOM**") of 25.0% to the seven tranches of 350,000 shares. Coast Copper did not apply a DLOM on the first 1,050,000 common shares because their restriction was exclusively a standard 4-month regulatory hold period. The fair value of the Hi-View common shares was determined to be \$808,500 after applying the DLOM to the closing price of Hi-View's common shares on the CSE on September 24, 2025. Once a tranche becomes free-trading, the DLOM on that tranche will be removed and those shares will be valued without a DLOM.

On February 23, 2026, the Corporation sold a total of 1,050,000 Hi-View common shares on the open market through the facilities of the CSE at the market price of \$0.29 per share for total aggregate cash consideration of \$304,500.

4. SALE OF BOREALIS PROPERTY, TOODOGGONE AREA, BC (continued)

If Hi-View completes a sale transaction in regards to the Borealis property, as defined in the purchase agreement, Hi-View agrees to pay to Coast Copper, within five business days following completion of the sale transaction, a one-time cash bonus payment in accordance with the following scale: If the transaction is less than \$10,000,000 the bonus payment would be \$500,000, if \$10,000,000 to \$20,000,000 the bonus payment would be \$1,000,000 and if greater than \$20,000,000 the bonus payment would be \$1,500,000.

In connection with the Borealis property sale, the Corporation's CEO and Chair of the Board were each awarded cash bonuses of \$33,125, with 50% to be paid within 5 days of Board approval and the remaining 50% to be paid within 5 days of the final tranche of Hi-View common shares becoming free-trading (August 23, 2026).

The Corporation recorded a gain on the sale of the Borealis property, as follows:

	\$
Receipt of cash	450,000
Receipt of exploration deposit	50,000
Exploration expenditures to keep claims in good standing	(42,394)
Receipt of 3,500,000 Hi-View common shares	980,000
DLOM applied to 2,450,000 Hi-View common shares	(171,500)
Reduction of capitalized exploration and evaluation assets to \$Nil (Note 7)	(19,017)
Transaction costs	<u>(14,025)</u>
Gain on sale of Borealis property	<u><u>1,233,064</u></u>

The Corporation will retain a 3% net smelter return ("**NSR**") royalty of which Hi-View will have the right to repurchase 1% for \$2,500,000 and an additional 1% for \$5,000,000.

5. SALE OF RED CHRIS PROPERTIES, GOLDEN TRIANGLE, BC

On October 18, 2022, the Corporation completed the sale of its 100% interest in the Gin, Eldorado and Bonanza properties (collectively the "**Red Chris Properties**"), which are located in the Golden Triangle area of northern B.C., to Skeena Resources Limited ("**Skeena**") for aggregate proceeds of \$3,000,000 in cash and Skeena shares ("**Purchase Price**") that were received over a 3-year period with the final receipt occurring in April 2025.

As a result of a portion of the cash and shares being recoverable over a 30-month period, the original \$2,500,000 receivable portion of the proceeds was calculated using a discount rate of 8%, resulting in a fair value of \$2,268,688 on the closing date ("**Closing Date**"). This amount was accreted to operations over the life of the receivable.

In connection with the Red Chris Properties sale, the Corporation's Chief Executive Officer ("**CEO**") and Chair of the Board were each awarded cash bonuses of up to \$36,000, for an aggregate total of up to \$72,000. The first tranche of \$12,000 was paid in November 2022, the second tranche in May 2023, the third tranche in October 2023, the fourth tranche in April 2024, the fifth tranche in October 2024 and the sixth and final tranche in April 2025.

The Eldorado property is subject to a 2% NSR royalty, half of which is owned by Cazador Resources Ltd. ("**Cazador**"), a private company controlled by the Corporation's CEO.

6. MARKETABLE SECURITIES

Marketable securities are financial assets measured at fair value through profit or loss (“FVTPL”). At March 31, 2026, they consisted of:

- 865,817 (December 31, 2025: 865,817) free-trading common shares of Ibero Mining Corp. with a fair market value of \$21,646 (December 31, 2025: \$21,646);
- 11,229 (December 31, 2025: 11,229) free-trading common shares of Skeena with a fair market value of \$465,217 (December 31, 2025: \$366,065); and
- 700,000 (December 31, 2025: Nil) free-trading Hi-View common shares with a fair market value of \$189,000 (December 31, 2025: N/A) and 1,750,000 (December 31, 2025: 3,500,000) restricted Hi-View common shares with a fair market value of \$354,375 (December 31, 2025: \$736,313).

The 350,000 Hi-View common shares that came free-trading on February 24, 2026 and the 350,000 Hi-View common shares that came free-trading on March 24, 2026 were not subject to the DLOM. Consequently Hi-View’s closing share price of \$0.27 on March 31, 2026 was used for these shares. The remaining 1,750,000 Hi-View common shares were subject to the 25% DLOM and consequently a price of \$0.20 was used for these shares. These valuations are determined using level 3 inputs which involve considerable estimates as the inputs used to value these marketable securities are based on unobservable market data and a DLOM.

Other than the Hi-View shares, which are valued using level 3 inputs as noted above, the fair value of marketable securities has been determined by reference to published price quotations in an active market, a Level 1 valuation.

During the three months ended March 31, 2026, the Corporation sold 1,050,000 Hi-View common shares for net proceeds of \$302,958, recording a gain on sale of marketable securities of \$82,064.

The continuity of marketable securities is as follows:

	\$
Balance, December 31, 2025	1,124,024
Proceeds on the sale of FVTPL investments (1,050,000 Hi-View shares)	(302,958)
Realized gain on sale of FVTPL investments (1,050,000 Hi-View shares)	82,064
Unrealized gain	<u>127,108</u>

7. EXPLORATION AND EVALUATION ASSETS

BRITISH COLUMBIA

a) NORTHERN VANCOUVER ISLAND

i) Empire Mine Property

On September 22, 2020, the Corporation entered into an option agreement to acquire a 100% interest in the Empire Mine property (the “**Empire Option Agreement**”) from Mirva Properties Ltd. (“**Mirva**”). The Empire Mine property consists of mineral claims (the “**Greater Empire Claims**”) and crown grants (the “**Quatsino Crown Grants**”) all located in the Rupert District on northern Vancouver Island, BC, near Port McNeill.

In order to earn a 100% interest in the Greater Empire Claims, the Corporation needed to make aggregate cash payments of \$750,000, issue 3,000,000 common shares of the Corporation to Mirva and complete work commitments totaling \$2,000,000 over a four-year period.

On May 27, 2024, the Corporation made the final \$250,000 cash payment and share issuance of 1,000,000 common shares, valued at \$75,000, to Mirva, earning a 100% interest in the Greater Empire Claims.

In order to earn a 100% interest in the Quatsino Crown Grants, the Empire Option Agreement states that the Corporation must pay Mirva the equivalent of \$500,000 with either a cash payment or equivalent value in common shares of the Corporation, at the Corporation’s election, on or before September 22, 2025.

During the year ended December 31, 2025, the Corporation extended the Quatsino Crown Grants payment date to September 22, 2026 with an additional payment of \$35,000 (paid on September 12, 2025). The Corporation has the option to further extend the Quatsino Crown Grants payment to September 22, 2027 with an additional payment of \$55,000 and to September 22, 2028 with an additional payment of \$75,000.

Mirva has retained a 2% NSR royalty on the Empire Mine property, of which 1% may be purchased for \$1,000,000 at any time up to 120 days after commencement of commercial production. The Empire Option Agreement has been structured such that this NSR royalty plus all other NSR royalties which may currently exist and be payable on the Empire Mine property will not exceed in aggregate 2.5% before buydowns.

At March 31, 2026, the carrying value of the Empire Mine property was \$1,045,749.

ii) Knob Hill NW Property

The Corporation owns a 100% interest in mineral claims on northern Vancouver Island called the Knob Hill northwest property. At March 31, 2026, the carrying value of the Knob Hill property was \$16,408.

iii) Copper Kettle Property

The Corporation owns a 100% interest in mineral claims on northern Vancouver Island called the Copper Kettle property. At March 31, 2026 the carrying value of the Copper Kettle property was \$19,139.

The Corporation owns a 100% interest in certain claims located in the Golden Triangle area of northern BC, near the District of Stewart. At March 31, 2026, the carrying value of the Scottie West property was \$3,113.

ii) Anyox Area Properties

The Corporation owns a 100% interest in certain mineral claims in the Golden Triangle area of northern BC. At March 31, 2026, the carrying value of the Anyox area properties was \$6,867.

iii) Virginia Silver Property

The Corporation owns a 100% interest in certain mineral claims approximately 35 kilometers (“km”) north of Smithers, BC. At March 31, 2026 the Virginia Silver property had a carrying value of \$649.

iv) Hanson Property

The Corporation owns a 100% interest in certain mineral claims located approximately 150 km west-northwest of Prince George, BC. At March 31, 2026, the carrying value of the Hanson property was \$3,539.

v) Sweeney Property

The Corporation owns a 100% interest in certain mineral claims located in the central interior of BC. Cazador owns a 1% NSR royalty on certain claims, 0.5% of which may be purchased by Coast Copper for \$2 million. An arm’s-length third party owns a 1% NSR royalty on certain other claims, 0.5% of which may be purchased by Coast Copper for \$1 million.

At March 31, 2026, the carrying value of the Sweeney property was \$62,134.

vi) Toodoggone Area Properties

The Corporation owns a 100% interest in certain mineral claims located in the Toodoggone mining camp in northcentral BC. The claim blocks are the Northern Contact, Loren, Goldfinger, Moonraker and Thunderball properties.

c) SOUTHEASTERN BC

i) Sully Property

The Corporation owns a 100% interest in three mineral claims in southeastern BC called the Sully property.

On August 21, 2024, the Corporation executed an option agreement with an arms-length individual (the “**Optionor**”) for six mineral tenures adjacent to the Corporation’s Sully property (“**Sully Agreement**”). Under the terms of the Sully Agreement, the Corporation can acquire a 100% interest in the property by making a cash payment of \$5,700 (paid) and issuing a total of 500,000 common shares of the Corporation in three tranches over a two-year period as follows:

- 100,000 common shares to the Optionor as soon as practicable following receipt of TSX-V approval of the option agreement (issued with a fair value of \$6,500);
- 150,000 common shares to the Optionor on or before the first anniversary date of the date of the option agreement (issued on August 8, 2025 with a fair value of \$9,000); and
- 250,000 common shares to the Optionor on or before the second anniversary date of the date of the option agreement.

These six mineral tenures are subject to a 1% NSR royalty with no buyback provisions.

At March 31, 2026, the carrying value of the Sully property was \$43,831.

ii) Rock Canyon South Property

The Corporation owns a 100% interest in certain mineral claims approximately 90 km northeast of Cranbrook, BC. At March 31, 2026, the carrying value of the Rock Canyon south property was \$688.

<u>15,397,000</u>		<u>15,397,000</u>	May 15, 2027

1 On September 28, 2024, the Corporation extended the expiry date of these warrants from the original date of September 28, 2024 to September 28, 2025. On September 28, 2025, the Corporation extended the expiry date of these warrants from September 28, 2025 to September 28, 2026. All other terms of the warrants remained the same. If the volume-weighted average price of the Corporation's common shares on the TSX-V is greater than \$0.20 per share for a period of 10 consecutive trading days, the Corporation may elect to accelerate the expiry date of part or all of the 8,000,000 warrants by giving notice thereof to the holders of the warrants, and in such case that portion of the warrants would be subject to an expiry date that is 30 business days after the date on which such notice is given by the Corporation.

2 Subsequent to March 31, 2026, 300,000 warrants with an exercise price of \$0.12 were exercised for proceeds of \$36,000.

e) Share-based payments expense and other equity reserves

The share-based payments expense for the stock options, based on vesting schedules, during the three months ended March 31, 2026 was \$51,584 (2025: \$26,799).

The fair value of the stock options that vested during the three months ended March 31, 2026 and 2025 was calculated using the Black-Scholes option pricing model with the following weighted average assumptions:

	2026	2025
Risk-free interest rate	3.01%	3.01%
Expected stock price volatility	84%	81%
Expected dividend yield	0.0%	0.0%
Expected option life in years	5.0	5.0

The weighted average fair value at grant date of options that vested during the three months ended March 31, 2026 was \$0.05 (2025: \$0.03).

Prepaid expenses	3,048	6,489
Accounts payable and accrued liabilities	(116,707)	35,971
	<u>(121,873)</u>	<u>43,544</u>

There were no non-cash investing or financing transactions during the three months ended March 31, 2026 or March 31, 2025.

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Corporation examines the various financial instruments to which it is exposed and assesses the impact and likelihood of those risks. These risks include credit risk, liquidity risk and market risk (including interest rate, currency and other price risk). The risk related to financial instruments is managed by senior management of the Corporation under directions approved by the Board.

Financial instruments

Cash, receivables, receivable from Skeena and accounts payable and accrued liabilities are carried at amortized cost as they approximate their fair values due to the short-term nature of the financial instruments. Marketable securities are measured using level 1 of the fair value hierarchy.

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

Financial risk factors

The Corporation's risk exposures and the impact on the Corporation's financial statements is summarized below:

a) Credit risk

Financial instruments that potentially subject the Corporation to a significant concentration of credit risk consist primarily of cash and receivables. The Corporation limits its exposure to credit loss by placing its cash with a major Canadian bank. The Corporation assesses expected credit risk from Skeena by assessing the maturity and ability to make payments and has not assessed a significant risk of collection.

b) Liquidity risk

Liquidity risk is the risk that the Corporation cannot meet its financial obligations associated with financial liabilities in full. The Corporation is exposed to liquidity risk and manages it through the management of its capital structure, as outlined below. The majority of the Corporation's current financial liabilities are anticipated to mature within the next fiscal period. The Corporation intends to settle these with funds from its positive working capital position. The Corporation remains exposed to liquidity risk.

c) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, commodity prices, equity prices, and foreign currency fluctuations.

(i) Interest rate risk

Interest rate risk on cash is minimal because these investments generally have a fixed yield rate. As at March 31, 2026, the Corporation did not have any interest-bearing debt.

(ii) Foreign currency risk

The Corporation could be exposed to foreign currency risk on fluctuations related to cash, and accounts payable and accrued liabilities that are denominated in a foreign currency. As at March 31, 2026, the Corporation did not have any significant exposure to foreign currencies and so considers foreign currency risk insignificant to the Corporation at present.

(iii) Price risk

The Corporation may at times have limited indirect exposure to price risk with respect to commodity and marketable security prices. Equity price risk is defined as the potential adverse impact on the Corporation's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Corporation's marketable securities are exposed to market risk however management believes the risk is not currently significant.

11. CAPITAL MANAGEMENT

The Corporation's objectives when managing capital are to safeguard the Corporation's ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders. The Corporation's strategy remains unchanged from the year ended December 31, 2025.

The Corporation considers the items included in shareholders' equity as capital. The Corporation manages the capital structure and makes adjustments to it in response to changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Corporation may issue new shares, or acquire or dispose of assets.

In order to facilitate the management of its capital requirements, the Corporation prepares annual expenditure budgets that are updated as necessary. The annual budgets are approved by the Board.

In order to maximize ongoing exploration efforts, the Corporation does not pay dividends. The Corporation's treasury management policy is to invest its cash in highly rated liquid short-term interest-bearing investments with an initial term to maturity of twelve months or less.

The Corporation is not subject to externally imposed capital requirements.

12. RELATED PARTY TRANSACTIONS

Key management compensation

Key management personnel at the Corporation are the Directors and Officers of the Corporation. Key management personnel, or their related parties, may hold positions in other entities that result in them having control or significant influence over the financial or operating policies of those entities.
